

Business Area: 0750 - Central African Republic

Output ID: 0750/A0/05/881/005

Output Title: 5 - HL5- HEALTH IN EMERGENCY

Full Output Statement: By 2021, at least 80 per cent of the actors at the central level and decentralized level in targeted areas have the necessary technical capacities and resources for health emergency preparedness and response, especially for children., which contributes to Health And Development In Early Childhood And Adolescence, Immunization Services As Part Of Primary Health Care, Strengthening Primary Health Care And High-Impact Health Interventions, Strengthening Primary Health Care And High-Impact Health Interventions (Covid). UNICEF aims to achieve this through Advocacy And Public Engagement, Developing And Leveraging Resources And Partnerships, Evaluations, Research And Data, Fostering Innovation And Use Of New Technologies, Operational Support To Programme Delivery, Systems Strengthening And Institution Building, Systems Strengthening To Leave No One Behind, United Nations Working Together. This contributes to the following Country Programme result: More children, especially newborns, infants and young children reach their fifth birthday. Pregnant and lactating women, children and adolescents (girls and boys) infected and affected by HIV, particularly the most vulnerable, use holistic and integrated quality management and promotion for behavioral change to improve their survival. Fewer children under 5 suffer from stunting and acute malnutrition.;fr^1

Start Date: 01.Jan.2018

End Date: 31.Dec.2022

Results Statement

Status (most recent update: ● Met

As-of Date: 02.Feb.2023

Le plan de riposte contre l'épidémie de Monkey-Pox a été adopté par le ministère de la Santé et l'UNICEF a contribué à la mobilisation des ressources pour son implémentation tout comme celui de la riposte contre la rougeole. La mise en œuvre de la stratégie intégrée de réponse santé/nutrition aux urgences s'est poursuivie avec une plus grande implication des acteurs locaux comme. Les capacités de 7 districts sanitaires ont été renforcées par la fourniture des vaccins, matériels se sécurité d'injection, médicaments et équipements biomédicaux et l'amélioration des compétences des prestataires sur le paquet intégré de soins préventifs et curatifs.
